

# Boorley Green to Dippenhall Road - Installation Update

Issue Date: July 2023

This newsletter covers our construction updates across **Eastleigh Borough, Winchester City, South Downs National Park** and **East Hampshire District**.

For the latest information about installation of the replacement pipeline, please visit [www.slpproject.co.uk](http://www.slpproject.co.uk) or simply scan the QR code.

## Current activity

We have finished all of our pipeline installation from Boorley Green to Dippenhall Road. Currently we are finishing the final stages of testing, final tie-ins, compliance checks and reinstatement in the area.

## Reinstatement

We want to return our working areas across Hampshire to their previous state as quickly as possible, however, it is important we do this in the conditions that are the most appropriate.

Where possible and weather permitting, we will have aimed to undertake land drainage works and reinstate topsoil last autumn, however, this can only be done when the soil conditions are suitable.

Once we have reinstated topsoil, where applicable, we can re-seed the area. Grass seed is best sown in autumn or spring but can be sown at the other times of the year if there is sufficient warmth and moisture. We will therefore need to do seed replacement grassland at the right time of year. This means that we will plan to re-seed in the next available season once the topsoil is returned.

We will reinstate trees, hedges and plants like for like where possible and plan to use the same or similar species to those removed. Where tree species cannot be used due to the restrictions of the pipeline easement, native shrubs will be used. Reinstated vegetation is subject to five years of aftercare. The plans and nature of reinstatement are based on agreements with the landowners and district and borough councils.

If you have any additional questions email us at [info@slpproject.co.uk](mailto:info@slpproject.co.uk)

You can also keep up to date with the latest news by following us on Facebook [@SLPCConstructionProject](https://www.facebook.com/SLPCConstructionProject), Twitter [@ConstructionSLP](https://twitter.com/ConstructionSLP) or by signing up to our newsletter at [slpproject.co.uk/signup](http://slpproject.co.uk/signup) to get regular updates.

## Keeping 100 road tankers off the road every day\*

\*Based on Esso's 2015 data for its existing pipeline

# Community charter

## Plenty of notice

We'll let you know at least two months in advance of any work starting and if our plans change, we'll let you know.

## Here to help

Our local team will be available by phone or email to answer any questions you have.

## Information directly to you

Our local area e-newsletter and alerts will let you know what's happening. Where we are working in streets or roads, we'll operate a dedicated text service to inform interested residents.

## In your area

We'll make sure information about installation in your area is easy to find on our website, in a way that is easy for you to identify what's important to you. In some public parks, we'll hold pop up events to meet with those using the facilities and give out information about our installation plans.

## Talking to landowners

All landowners affected by the installation will have a dedicated member of our lands team to contact to discuss our work.

## Open and honest

We'll be clear about our works and any disruption that may take place.

## Safe and secure

We'll keep our team safe, and we'll keep you safe. Our commitment to health and safety is at the heart of our business and we'll make sure your safety is not impacted by our work.

## Well managed sites
