

## **ROPLEY LOCAL CYCLES FOR ST PETER'S BELL # 4**

Following on from the fire in 2014, three of our bells were saved however, Bell No 4 did not survive the reinstatement and has had to be replaced at a further cost of £11,415 to the Church.

Keith Lines who has recently arrived in Ropley has decided to take on a 130-mile cycle ride in France to raise funds for this project. He will be fully self-sufficient, his bike carrying him, his tent and all his provisions for the five days departing on 29 May 2025.
